Question 7 What month is your birthday?

Question 8 Would you rather be an eagle or a lion?

Question 9 How many letters in your middle name?

Question 10 Would you rather be 3 ft or 8 ft tall?

Moving on... 2 main ways to share germs.

1. physical contact (possessing someone's card)

2. airborne (speaking in close proximity)

Which of these got you

BACTERIA **sick?** VIRUS

Bacteria

- larger than virus
- can use antibiotics to help cure illness

Virus

- smaller than bacteria
- cannot use antibiotics to cure illness
- examples:

• examples:

influenza

But, there's hope!

1. Eat a variety of healthy food to get plenty of vitamins and minerals.

2. Get plenty of sleep to let your immune system fully recharge.

3. To reduce germs, wash hands **BEFORE** eating and **AFTER** using the restroom.
