

Trivia Tuesday

Did you know ...

- you sneeze at a rate of
100 mph.

- the smallest bones in the human body are
found in the ears.

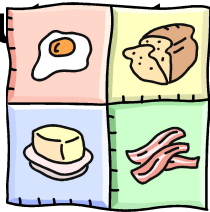

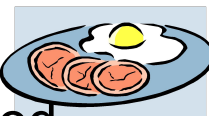

- your thumb is the same length as your
nose.

Six Essential Nutrients Brochure

Your group will be creating a tri-fold brochure identifying the six essential nutrients. Each group member must contribute equally to the project. Divide up tasks as needed to be most productive with your time.

The main tasks:

1. Title page with a title, drawing(s) and group members' names.
2. Table of contents page on the inside fold listing the 6 nutrients in order of what is on the inside pages.
3. Inside page with the six nutrients, their functions, 3 examples of foods from each group, and at least 1 drawing per page added to the title page

<p>4. Back page will include each group member's contributions.</p> <p>•list 3 food examples</p> 	<p>Six Essential Nutrients</p>  <p>BY: Julian, Patricia and Bryce</p>	<p>Acknowledgements</p> <p>Julian- fats and proteins, and drew the pictures for the title page.</p> <p>Patricia- carbs and vitamins, and designed table of contents</p> <p>Bryce- minerals and water, and designed title page</p>
<p>Protein – give the function</p>  <p>•list 3 food examples</p>
