Health Current Event Directions:

- ✓ Each student will find ONE current event that relates to health and bring in this article during our health rotation (due date will be given).
- ✓ Each student will search and find a health current event during the past 3-6 months from a list of appropriate websites provided in class.
- ✓ Each student will write a 2-3 sentence summary of the current event article and explain what part of the health triangle it is connected to (it is possible that an article might relate to more than one side of the health triangle).
